Consolidated Communications Launches New Data and Voice Solutions for Small and Medium Businesses

BusinessOne Solutions provide added flexibility and reliability at more competitive rates

MATTOON, Ill., April 05, 2018 (GLOBE NEWSWIRE) -- [Consolidated Communications Holdings, Inc.](#) (NASDAQ:CNSL), a leading broadband and business communications provider, today announced the launch of BusinessOne, bundled high-speed data and voice solutions specifically designed to meet the needs of small and medium-sized businesses. BusinessOne provides customers options and flexibility for their voice and data services, including a dedicated connection that ensures reliable access to highly-available bandwidth at all times.

The **BusinessOne Premier** bundle offers symmetrical speeds and is an ideal solution for small and medium-sized businesses offering highly reliable, dedicated bandwidth coupled with flexible voice options. The **BusinessOne Basic** solution offers a competitively priced bundle that meets the everyday needs of many small businesses with a dedicated and reliable connection that is scalable based on customer needs.

In addition to reliable data connections, customers can choose from traditional analog phone service or a next-generation VoIP solution over an advanced data connection, which provides a powerful, feature-rich virtual phone system.

"Consolidated Communications understands the technology and communications needs of small and medium-sized business customers and we are excited to offer a simple, yet flexible and competitively priced suite of advanced data and voice services," said Doug Abolt, vice president of commercial product management at Consolidated Communications.

Backed by Consolidated Communications' national fiber network and experienced local teams, BusinessOne offers small and medium-sized businesses increased flexibility and choice to help them with their technology and communications needs now and in the future.
