

Consolidated Communications Introduces Affordable Broadband Plans with No Data Limits for Small and Medium-sized Businesses

September 16, 2020

New FiberConnect and BizConnect plans enable small businesses to lock in savings without data limits.

MATTOON, Ill., Sept. 16, 2020 (GLOBE NEWSWIRE) -- [Consolidated Communications](#) (NASDAQ: CNSL), a leading broadband and business communications provider, today announced the launch of new flexible broadband Internet plans that offer simplified, value-based pricing without data limits to small and medium-sized businesses.

Reliable, fast Internet connections are more important than ever, and Consolidated's new plans provide small businesses affordable options that match their needs. [FiberConnect](#) plans deliver symmetrical upload and download speeds up to 1 Gig in Consolidated's fiber-based service area, and [BizConnect](#) plans deliver download speeds up to 100 Mbps in other areas.

"Consolidated Communications' FiberConnect and BizConnect plans offer affordable, flexible options with no data caps and locked-in prices that businesses can count on for up to three years," said Doug Abolt, vice president of commercial product management. "These services offer substantial value for businesses across many industries, including retail, health care and real estate, as well as for many service professionals."

Flexible contract options enable businesses to lock in savings in increments of one, two or three years. A no-contract option is also available. All broadband Internet plans come with a 30-day money-back guarantee and include access to 24/7 U.S.-based technical support. Any FiberConnect or BizConnect plan can be bundled with one of Consolidated's dependable and robust voice services, including [ProConnect](#) Unified Communications, for additional savings.
